States with Highest Number of Storm Events in 2024

State	Number of Storm Events (Approximate)
TEXAS	145,000
OKLAHOMA	85,000
IOWA	65,000
NEBRASKA	58,000
MINNESOTA	52,000
GEORGIA	50,000

The chart displays the annual number of deaths from COVID-19 in the United States from 1950 to 2023. The y-axis represents the number of deaths in thousands (K), with major gridlines at 0, 27K, 54K, and 81K. The x-axis shows years from 1950 to 2023 in three-year increments. The data shows very low death counts until the mid-1990s, followed by a significant and volatile increase. A major peak occurred in 2020, reaching approximately 81,000 deaths, with another high point in 2023 at nearly 80,000 deaths. The chart includes a light blue shaded area representing the range of the data and a dark blue line for the annual values.
